**SAMSUNG**  
BUSINESS

# Performance, speed and convergence for doing business today

# Samsung's printer innovations translate into increased performance and reduced costs

## **Print faster and smarter to keep up with your business**

The Samsung MultiXpress MX7 Color Series takes high performance A3 (11" x 17") color, multi-function printing into new territory. With smart features like a 1.5 GHz quadcore CPU for faster printing and scanning, an Android™-powered UX center with pivoting screen, a secure Mobile Device Management (MDM) solution that integrates with Samsung mobile devices, customization via Samsung SDK (software development kit), the ability to connect directly to the Cloud, and the reliability Samsung is known for, the MX7 Color Series MFPs offer usability and performance that will make them a day-to-day part of your company's operation.

# Our flagship A3 Color MFPs: MultiXpress X7400, X7500 and X7600 Series

These powerful MX7 Color Series MFPs are specifically designed to respond to the growing demand for A3 printers, delivering smart usability that enables businesses to work faster and more efficiently with intuitive, user-friendly controls. Equipped with high-performance, cost-efficient features and embedded security, Samsung MX7 Color Series MFPs meet the demands of businesses that depend on high-volume printing with low total cost of ownership (TCO).

## Smart user experience

Smart UX Center powered by Android™ offers full-page previewing on a 90-degree pivoting screen.

SDK (Software Developer Kit) for Samsung MFPs enables development of customized Android applications to improve productivity and efficiency.

Enterprise-level Samsung Cloud Print™ provides a secure, scalable internal network.

Wireless options with active NFC and Bluetooth® Low Energy connectivity allows users to connect and print with ease.

## Powerful performance

1.5 GHz quad-core CPU enables 2x faster print speeds compared to a dual-core CPU.

Scan up to 160/240 double-sided images per minute (ipm) (LX/GX models) using a Dual-Scan Document Feeder (DSDf)\*

1,200 dpi high resolution for quality output even when printing at full speed.

Next-generation toner technology for superb finishes and capable of printing up to 330,000 (X7600) images per month.

Rendering Engine for Clean Page (ReCP) technology automatically sharpens images and makes text crisp and legible.

## Smart solutions and diagnostics

The Samsung Smart Printer Diagnostic System (SPDS) app helps ordinary users fix printing issues from virtually anywhere using pictures and videos to make troubleshooting trouble free.

Samsung eXtensible Open Architecture (XOA) provides customized printing solutions to maximize efficiency and security, and that are simple to install and update on existing, new, or additional laser printers or MFPs.

# Work smarter with an intuitive user experience

## 90-degree pivoting touchscreen

Samsung's unique display pivots 90 degrees for full-page portrait or landscape viewing. This innovative feature enables users to easily review and edit documents right at the MFP before printing, without having to zoom or to return to their PCs to make adjustments. In addition, applications such as Hancam Office® support the horizontal view mode, as well as and edits of Microsoft® Office® Word, PowerPoint® and Excel® documents. Furthermore, Samsung's new Smart Workspace lets users complete jobs with their preferred UI, address book and files, virtually anywhere.

## Color Android-based printing UX

Samsung MX7 Color Series MFPs boast Android-based printing UX, allowing the Samsung SMART UX Center to function just like a touchscreen tablet. It features an intuitive touch-to-print display screen for easy use, and is compatible with various Android-based devices. Included are custom widgets for creating instant, one-tap access to frequently used functions. This customizable user interface (UI) makes operation even simpler, and can be shared with various fleets.

## True convenience works the way people think

As part of the SMART UX Center, Samsung's Printing App Center enables users to easily set up printers by downloading essential apps from the a web portal. Other convenient options include the Workbook Composer, which gives users the ability to crop desired content, automatically scan it, and save it for final formatting and editing without needing a PC. Smart Color Manager\* allows users to apply and adjust color effects to images.

## Gain control at the individual level

Modify the My Page settings and Quick Menu for each user to keep track of an individual's usage, control accessibility and more. Administrators can customize the UI by creating quick custom apps directly on the devices.

## Enterprise-level Samsung Cloud Print

With Samsung's private cloud, users can work in a secure internal network. The cloud architecture supports scalability and ease of deployment.

## Enterprise-level security

Samsung's enterprise-level encryption ensures end-to-end security, even when working remotely. The Mobile Device Management (MDM) solution provides full integration for enterprise mobility. Samsung supports the secure sharing of documents and collaborating with colleagues using instant messaging (IM). Samsung MFPs are also easily integrated with legacy enterprise security applications, as well as existing print management and workflow solutions.

## Wireless option with active NFC

Users can connect and print with ease using Samsung's MX7 Color Series MFPs with advanced NFC technology. Simply tap, then print, scan or fax documents from any NFC-supported mobile device. The wireless option with active NFC provides user authentication through a mobile device, while Samsung Mobile Print Pro provides secure printing and easy Wi-Fi setup and management.

# CORPORATE FINANCIAL OVERVIEW

## FINANCIAL ASSETS

NBT Corporation requires month-to-month green energy management in order to ensure that it meets Ordinance 4012-Section B. NBT Corporation began with a 25% efficiency percentage last year, with the need to meet national regulatory standards of 32% energy efficiency for residential and commercial buildings in North America.

# A platform that empowers you to do business your way

## Create a customized and cost-efficient workflow system

The Samsung Business Core™ Printing Solutions (BCPS) software suite runs on the XOA-Embedded platform and enables small to medium-sized businesses to improve document and output management. With custom workflows, secure print release and cloud printing, IT managers can easily implement solutions typically seen at the enterprise level.

## Seamless manageability and flexibility with a secure platform

The eXtensible Open Architecture (XOA) and Android platforms empower your business to seamlessly run custom or independent software vendor (ISV) server-based productivity solutions that meet your specific business needs. XOA and Android can make printing output comply with your account policies, integrate with your Document Management System, set and enforce printing rules, and more.

Account Policy Compliance

Document Management System

Printing Rule Enforcement

And More...

### BCPS output management (security) solutions

Samsung's XOA platform provides customized enterprise solutions for integration with our MX7 Color Series MFPs to satisfy specific business requirements. Our output management solutions provide cost-effective, secure print operations. SecuThru™ Lite 2 enhances document security and reduces costs with user authentication. The Usage Tracker controls printing expenses by easily tracking device functions.

### BCPS document management (productivity) solutions

Samsung's document management solutions increase productivity and provide easy management, along with security and efficiency. SmarThru™ Workflow Lite increases productivity with its cost-saving automated workflow solution. Secure Login Manager safeguards valuable data and devices from unauthorized use. Cloud Connector provides easy, secure access for scanning to and printing from the cloud.

PrinterOn is the world's leading enterprise-grade mobile printing platform, and is designed for any organization that wants to provide simple, secure mobile and cloud printing.

Samsung's Mobile Print solution earned the Summer 2012 Pick as "Outstanding Mobile Print App" from Buyers Lab, Inc.

# Faster jobs, superb quality

## Maximum monthly duty of up to 330K (X7600)\*

Samsung MX7 Color Series MFPs supply a high maximum monthly duty. Highly durable and long-lasting, they free businesses from the time and expense of having to change toner cartridges, drums, and developer.

## Easy-to-use Samsung Smart Printer Diagnostic System (SPDS)

The SPDS smartphone app can diagnose printer failures from across the office or across the globe.\* The app provides information in real time, using pictures and videos of the MFP components to simplify troubleshooting, even for those with little technical knowledge. SPDS can also send preemptive alerts to smartphones, addressing issues before they occur.

Toner Waste Bottle

\*Estimated Toner Yield @ 5% coverage for best performance and yield, we recommended using genuine Samsung parts and consumables. Declared cartridge yield in accordance with ISO/IEC 19752.

## Faster dual scanning

The MX7 Color Series MFPs can dual-scan up to 240 ipm (GX models), twice the scanning speed of the X4300 series and six times that of other printers, which typically scan at 36 ipm. This blazing-fast scan speed equates to four pages being scanned every second, reducing digital copy processing time while raising productivity.

## Crisp 1,200 x 1,200 dpi resolution

Samsung MX7 Color Series MFPs are equipped with a high-quality Laser Beam Scanning Unit (LSU) that produces consistently sharp output. Using micro-rendering to smooth rasterized edges and a 1,200 x 1,200 dpi resolution, the MX7 Series provides crisp printouts every time.

## Next-generation toner technology for superb finishes

Samsung's advanced toner cartridges ensure the best printouts possible. Using our next-generation polymerized toner, Samsung has achieved a 9% reduction on fixation temperature, which translates to professional results while lowering energy consumption.

## Rendering Engine for Clean Page (ReCP)

Samsung's unique ReCP technology delivers quality output with clear text and images. The innovative technology automatically sharpens the focus of both graphics and text, ensuring consistently impressive results.

## Powerful quad-core CPU

The Samsung MultiXpress MX7 Color Series boasts the industry's first quad-core 1.5 GHz CPU with System-on-Chip (SoC) technology. This robust CPU provides the power and capacity to accomplish print and copy tasks of virtually any size or complexity as quickly as a print every second. The result: businesses can run more productively and efficiently.

\*For more detailed specifications, please see pages 10-11.

# Customization at finish line

## Samsung offers businesses 25 productivity options

Samsung offers businesses 25 options that enable the MX7 Color Series MFPs to handle and finish more documents in less time. These productivity enhancing options include a high-volume finisher that staples up to 65 sheets as well as a 25-sheet booklet finisher that can assemble a 100-page booklet. Our Wi-Fi protocol option supports an additional 5 GHz compared with a typical 2.4 GHz speed, enabling users to transmit high volume data with reliable performance.
